## SUMMARY

Full-stack developer specializing in modern web applications. I build production-grade platforms — e-commerce systems, admin dashboards, AI-powered tools — using Next.js, TypeScript, and cloud infrastructure. I ship fast without cutting corners.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, HTML, CSS  
**Frameworks:** Next.js, React, Tailwind CSS, Framer Motion  
**Backend & Data:** Supabase, Prisma, PostgreSQL, NextAuth  
**Tools & Platforms:** Vercel, Git, GitHub, VS Code

## PROJECTS

### **Cleopatra Delights** Freelance Client Project

*Full-stack e-commerce platform and admin dashboard for an Egyptian-inspired bakery brand.*

- Built complete e-commerce frontend with Next.js 16, TypeScript, Tailwind CSS v4, and Framer Motion
- Engineered admin dashboard with Prisma, NextAuth v5, TanStack Table, and Recharts for real-time analytics
- Implemented order management, inventory tracking, and business analytics
- Deployed on Vercel with Supabase backend

### **Dr Dan's No BS Protein** Freelance Client Project

dr-dans-protein.vercel.app

*Brand site for a protein supplement company, designed and deployed end-to-end.*

- Designed responsive UI and built complete site using Next.js, TypeScript, Tailwind CSS
- Deployed and maintained on Vercel

### **ResumeAI** Personal Project

resume-rebuilder-cursor3.vercel.app

*AI-powered resume enhancer that rewrites resumes to match job descriptions without fabricating qualifications.*

- Built full-stack app with Next.js and Tailwind CSS
- Implemented keyword matching, job description analysis, and strict truth mode
- Deployed on Vercel
